

## **Nathan Kroh, FDA certified Sanitation Rating Officer**

From Farm to Fork: Food Safety and Regulatory Oversight of Dairy Products in North Dakota

### **Bio:**

I have been the Dairy Program Coordinator since January of 2018, and doing food safety work with the Dept of Agriculture for almost 10 years. A graduate of NDSU with a B.S. in Food Science, I actually was a commercial beekeeper for 5 years prior to starting with the Dept of Ag. I live in Mandan with my wonderful wife and two children.

### **Description of Presentation:**

I will describe the history of dairy regulations, food safety concerns associated with dairy. I will also describe the regulatory oversight and procedures for dairy products.

### **Learning Objectives:**

1. Obtain a better understanding of how dairy production differs from most other production systems.
2. Support a stronger culture of food safety awareness regarding dairy production.
3. Develop a more cooperative and sympathetic relationship with dairy regulation, food suppliers, distributors, and the consumer.
